

A photograph of a large, multi-story brick building with a prominent white steeple, likely a university building. The building is partially obscured by large, leafy trees in the foreground. The sun is setting behind the trees on the right side of the image, creating a warm, golden glow. The sky is a mix of blue and orange.

Location

UNG is conveniently located about 70 miles, or a 1-hour drive from downtown Atlanta, the US Southeast's largest metropolis.

Home to the Atlanta Braves, Coca-Cola's Headquarters and the busiest airport on the planet, our location means students have easy access to travel when necessary but will never get bored locally with the diverse options available in the city.

Location

Georgia is home to prestigious universities and research institutions that attract many top-tier students. Additionally, the state's thriving industries, such as technology, healthcare, and finance, provide employment prospects for skilled professionals, attracting talent from across the globe.

Therefore, Atlanta has several large immigrant communities, including Indian, Korean, Vietnamese, Nigerian, Hispanic, and Brazilian communities that are continuing to rapidly grow. Students from these countries can find easy access to grocery stores and restaurants that offer a taste of home.

North Georgia Climate

5 Campuses

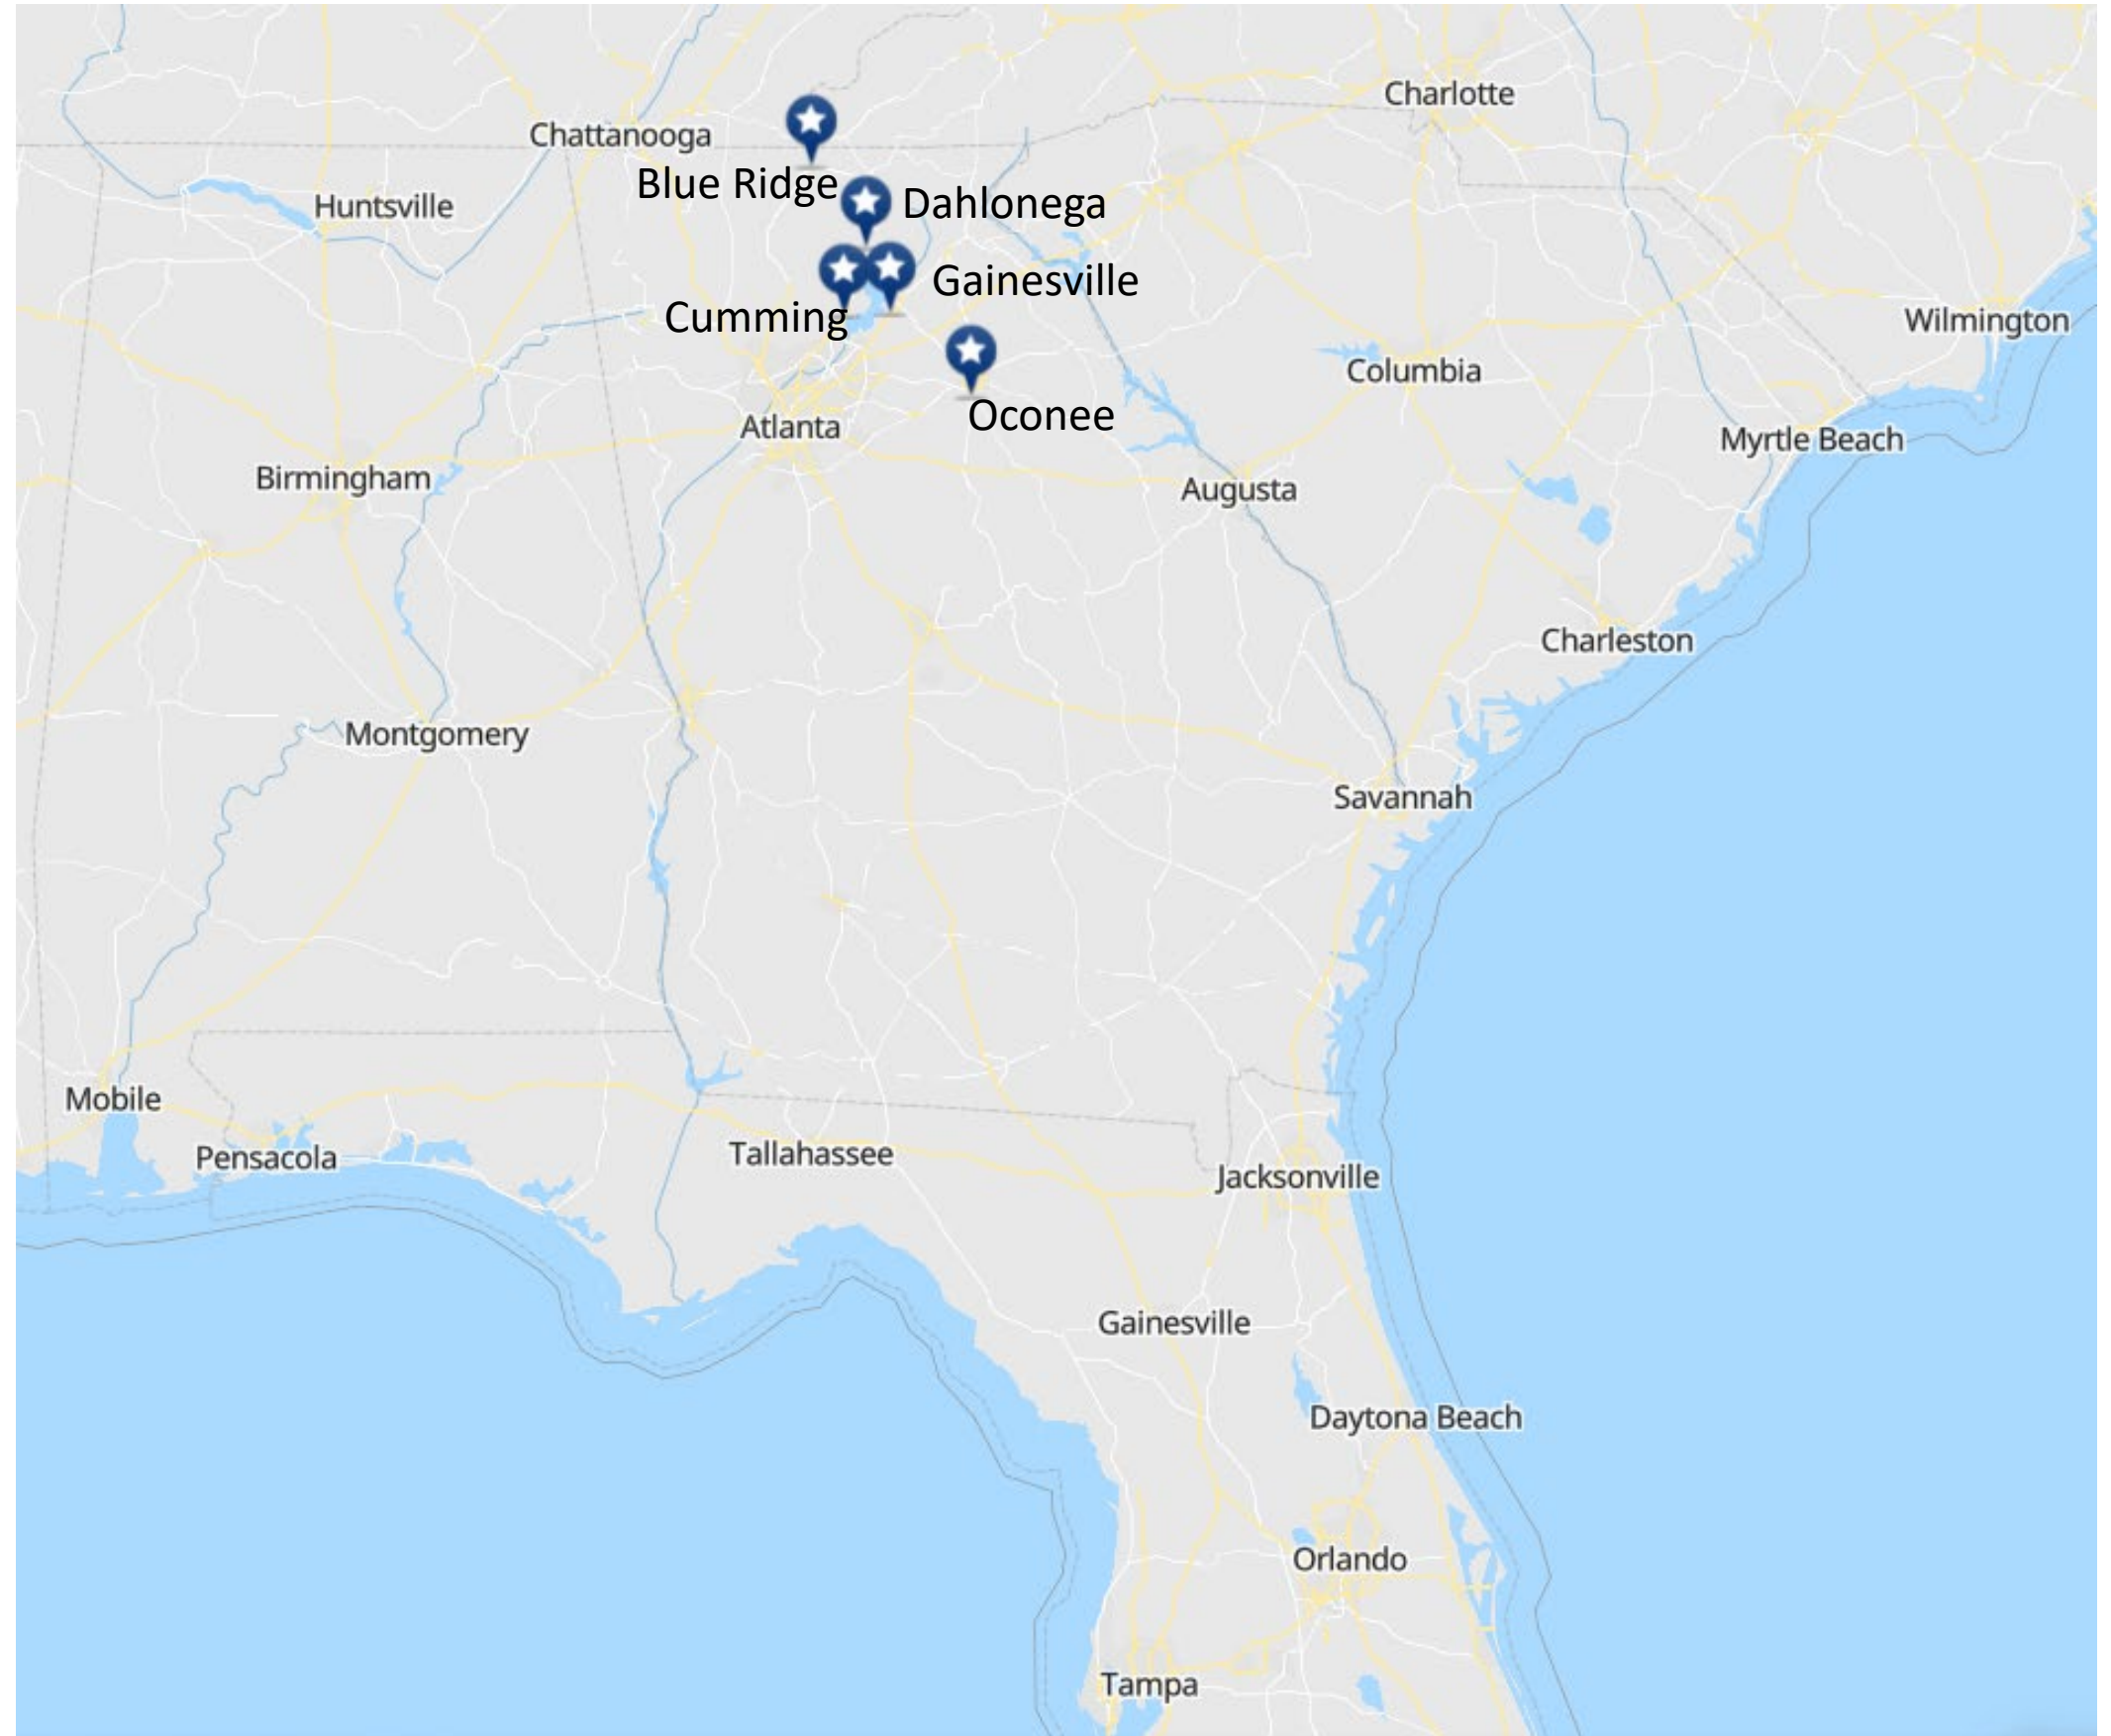

4 Commuter Campuses:

- Blue Ridge
- Cumming
- Oconee
- Gainesville

1 Residential Campus with student housing:

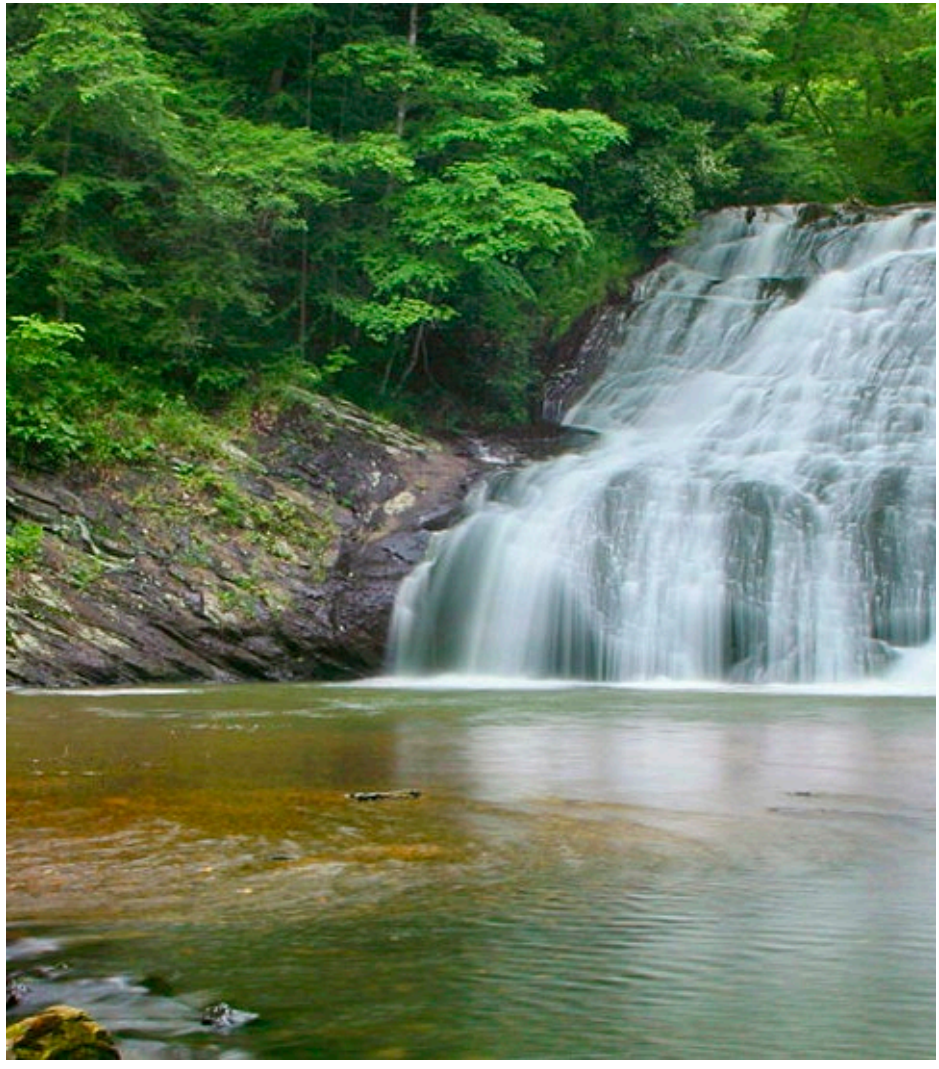

- Dahlonega

Our focus for recruitment is the **Dahlonega Campus.**

UNG's Dahlonega campus is located in the quaint, picturesque town of Dahlonega, which embodies small town American living. Nestled in the foothills of the Appalachian mountains, you'll find natural beauty around every bend and an endless array of outdoor activities.

Cybersecurity & Computer Science (B.S.)

Computing
Accreditation
Commission

The Computer Science Bachelor's Degree
is also accredited by the Accreditation
Board for Engineering and Technology

Cybersecurity

- UNG is designated as a National Center for Academic Excellence in Cyber Defense by the Department of Homeland Security and the National Security
- As a state military institution, UNG's Cyber Institute has recruited most faculty from US government NSA. Many domestic students go on to intern or start careers with the FBI/CIA. International students are placed in corporate internships in the Atlanta area. A lot of Fortune 500 companies recruit our students.
- 2019 National Champions of the NSA Codebreakers Challenge

Computer Science

- Concentration in Information Assurance and Security (IAS) option.

Psychology (B.S.)

- Small classes, individual attention.
- Research driven program. Students are paired with a professor and assist with research as a graduation requirement.
- A minor is required for psychology majors. Popular minors include biology, sociology, and human services and administration.
- Typically, students graduate having published in a psychology journal.

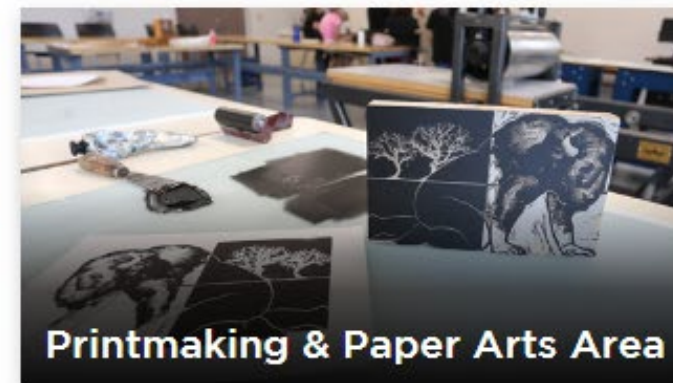

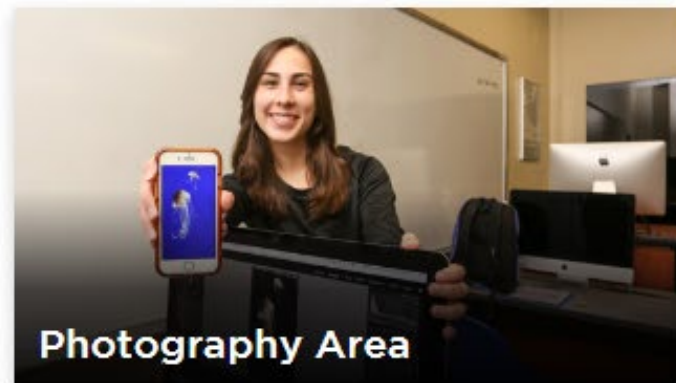

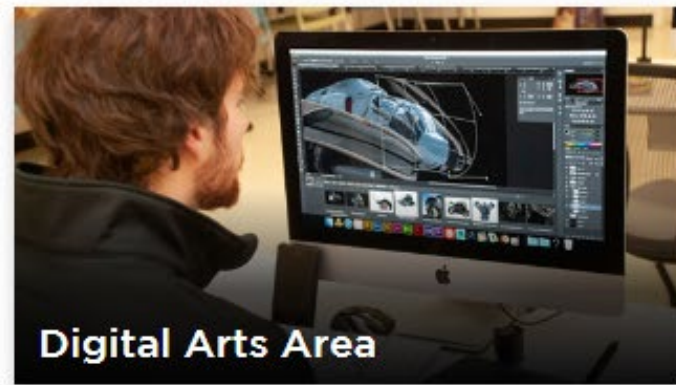

Where Our Students Found Jobs

- Health Care settings as Registered Behavior Technicians
- Department of Community Supervision Officers
- Law enforcement agencies
- NASA
- Human resources offices in corporate and university settings.

Visual Arts (B.F.A.)

Concentrations in the Visual Arts degree include the areas below:

Quick Facts

- Graduates from Digital Arts concentration have started careers in film special effects for companies like Disney & Marvel
- UNG has the first MakerBot Innovation Center in Georgia where students and faculty have free access to 3D printers
- All students in the Bachelor of Fine Arts in Visual Arts conclude their program by presenting individual senior capstone exhibitions
