Quote from Principles Instructor

“Tutoring is clearly beneficial to the first-time accounting students, but it is equally if not more beneficial to the junior/senior accounting tutor. A student has not truly mastered accounting principles until they have successfully explained them to an accounting novice.”

- Dr. Best

Quote from Principles Tutor

“ Tutoring accounting students is great. I get the gratification of helping them learn about accounting while at the same time brushing up on concepts I haven’t seen in a while.”

- Ian Sperin

Quote From Principles Student

“Having homework that I do not understand and having someone explain it to me in a way that I can understand has helped me tremendously with tests.”

- Joel Whitmire
