

Donovan Hall

Welcome to Donovan Hall! This is where I live as a freshman on campus, and is one of the many options we have available for students! This residence hall was built in 1975, and is community style- this means that you share a room with one person and then share a bathroom with your hall. The bathrooms are cleaned twice a day, and contain 3 showers and 4 toilets. There also is a handicap accessible bathroom with a toilet and shower on every hall. There are two main wings to this building (one side for boys, one side for girls) and a central common space complete with a computer lab, kitchen, and laundry room. There is one Resident Assistant per hall to help you adjust into college and plan fun activities to do with your hall. In Donovan, you are allowed to have visitors within the visitation hours, and you can sign your guest in at the front desk in the lobby. As a freshman, I loved living in Donovan, as I was able to easily make friends on my hall and enjoyed having the community feel to come home to after class.
