

William J. "Lipp" Livsey Drill Field

The drill field is the heart of our campus literally and figuratively. When we were founded back in 1873, we were the state agricultural school. Students would actually plant crops on the drill field and harvest them at the end of the semester. Because of this we started the tradition that the drill field shouldn't ever be used as a shortcut to get around campus.

Despite that tradition students are still welcome to go do things on the drill field. The cadets go out there to do their military labs and ceremonies. We host events like Fall and Spring Jam, outdoor movies, etc. and students will also go throw a football or frisbee, read, study, play with pets.
