

Dunlap Hall:

Dunlap Hall is one of the biggest academic buildings on campus, so you are most likely going to have at least one class in here as a student. It houses our education classes for all of our education majors. It also houses our English department and our Foreign Language department. It also has a language lab for students to get tutoring and complete assignments for their foreign language classes. I also know as a psych major, I have a lot of my classes in here as well as the psychology lab in this building.
