

Hansford Hall

Hansford hall is home to several academic departments. The second floor is home to the visual arts department. If you're looking for drawing, sculpting, pottery, painting, photography or any other visual art, you can find it here. You can take classes here whether you're looking for a major or a hobby. The professor offices for the visual arts department are also located here.

On the 3rd floor you have 2 major departments, criminal justice and political science. This building doesn't have any classrooms, just professor offices. It is very important that you come see your professors if you ever need any extra help.
