

SOLDIER-LEADERS IN THE AGE OF AI

THE FUTURE OF PRE-COMMISSIONING EDUCATION

The University of North Georgia Institute for Leadership and Strategic Studies
and the U.S. Army War College present

SYMPOSIUM ON SOLDIER-LEADERS IN THE AGE OF AI: THE FUTURE OF PRE-COMMISSIONING EDUCATION

Date: November 13-14, 2019

Location: UNG's Dahlonega Campus Convocation Center Room 219

The theme of “adaptive, agile leaders” is pervasive in today’s military literature. Yet the leader development impacts of accelerating technological change have been largely overlooked. In this context, institutions of higher education that produce military officers must understand the future operating environment and be equally agile and adaptive. The typical evolutionary approach to institutional change will not be successful. Today’s freshman Cadets will be field-grade officers in 2035, and amazing opportunities and challenges lie ahead of them. Their success requires educational institutions and leader development programs fit for the age of Artificial Intelligence.

This symposium will explore:

- How advances in science and technology will shape the future battlefield operating environment and support the future soldier-leader (e.g., neuroscience, cyber, man-machine learning, drones, augmented learning, artificial intelligence).
- The influence of science and technology advances on future military leadership education and development (e.g. officer leader development in pre-commissioning education programs, recruiting).
- The impact of artificial intelligence and technological initiatives on the ethical decision-making and ethical leadership of future soldier-leaders.

SPEAKERS

MAJ. GEN. CHARLIE DUNLAP, JR.
USAF (Ret.), Duke University
Executive Director, Center on Law,
Ethics and National Security

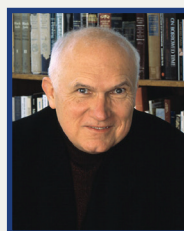

COLONEL CANDICE FROST
Director of Foreign Intelligence,
U.S. Army Deputy Chief of Staff,
G2 Intelligence

CW3 JERRY LEVERICH
U.S. Army (Retired)
Director, Fusion &
Assessments Directorate
G-2, U.S. Training and
Doctrine Command

MR. EMERSON T. BROOKING
Resident Fellow at the Digital
Forensic Research Lab of the
Atlantic Council, co-author of
*Like War: The Weaponization of
Social Media*

MAJOR GENERAL BOB SCALES
U.S. Army (Retired), Ph.D.

MR. PAUL SCHARRE
Senior Fellow and Director,
Technology and National Security
Program at the Center for a New
American Security, author of *Army
of None: Autonomous Weapons
and the Future of War*

Symposium registration open
