

Educational Technology Summit

Dahlonega, Georgia

The 2024 Educational Technology Summit, hosted by the University of North Georgia College of Education and Pioneer RESA, provides an opportunity for district-wide technology specialists, school-based technology specialists, and P-20 educators to experience innovative and engaging technologies applied to teaching and learning.

Our theme, “Ignite, Innovate, and Imagine” embodies the inspiration we hope to instill through this professional learning experience as we all prepare to begin the 2024-2025 school year.

July 18th, 2024
