NOTICE OF FACULTY POSITION

Assistant Professor of Engineering

Responsible for teaching introductory engineering, coordinating the engineering program and doing appropriate service and scholarly activities. The successful candidate will have a strong commitment to undergraduate teaching and be responsible for teaching introductory engineering, including statics and dynamics courses. This person will also be the coordinator of the pre-engineering program. The standard teaching load at UNG is 12 credit hours per semester. Scholarly work involving undergraduates, advising students, service to the university and community, active participation in departmental activities, maintaining a collegial work environment and professional development are expected.

The successful candidate will have a strong commitment to undergraduate teaching. Applicants are required to have a Ph.D. in engineering or a closely related field. All employment offers are contingent upon successful completion of a background investigation, as determined by the University of North Georgia in its sole discretion.

If qualified for this position, or if you can refer a qualified candidate, please contact Beth Arbuthnot, Associate Vice President of Human Resources/Risk/Compliance, University of North Georgia.
