

UNG Tree Identification Survey

Scan the QR code with your camera on your smart device.
Open the link to open the tree identification form using the browser on your computer
Use the provided pictures and descriptions to identify the tree you are examining and add data for our study.

<https://arcg.is/9PGaX>

This survey is being developed to help citizen scientists in North Georgia identify and inventory trees to assess community forest health. After entering information about trees, contact us to view a map of trees in your community.
