Section 2. Program Completers
How many candidates completed programs that prepared them to work in preschool through grade 12 settings during Academic Year 2013-2014?

Enter a numeric value for each textbox.

- Number of completers in programs leading to initial teacher certification or licensure: 265
- Number of completers in programs leading to a degree, endorsement, or some other credential that prepares the holder to serve in P-12 schools (Do not include those completers counted above.): 45

Total number of program completers: 310

Section 3. Substantive Changes
Have any of the following substantive changes occurred at your educator preparation provider or institution/organization during the 2013-2014 academic year?

3.1 Changes in the published mission or objectives of the institution/organization or the EPP
   No Change / Not Applicable

3.2 The addition of programs of study at a degree or credential level different from those that were offered when most recently accredited
   No Change / Not Applicable

3.3 The addition of courses or programs that represent a significant departure, in terms of either content or delivery, from those that were offered when most recently accredited
   No Change / Not Applicable

3.4 A contract with other providers for direct instructional services, including any teach-out agreements
   No Change / Not Applicable

Any change that means the EPP no longer satisfies accreditation standards or requirements:

3.5 Change in regional accreditation status
   No Change / Not Applicable

3.6 Change in state program approval
   No Change / Not Applicable

Section 4. Display of candidate performance data.
Provide a link that demonstrates candidate performance data are public-friendly and prominently displayed on the school, college, or department of education homepage.

Section 5. Candidate and Program Measures

For each required measure of program impact, program outcome, or consumer information, evidence must be provided for programs leading to initial teacher certification or licensure. CAEP encourages EPPs to provide information on the optional reporting measures as well.

**CAEP's 8 Reporting Measures**

5.1 Impact on P-12 learning and development
5.2 Results of completer surveys
5.3 Graduation rates
5.4 Ability of completers to meet licensing (certification) and any additional state requirements
5.5 Indicators of teaching effectiveness
5.6 Results of employer surveys, and including retention and employment milestones
5.7 Ability of completers to be hired in education positions for which they have prepared
5.8 Student loan default rates and other consumer information

Yes, a program or programs leading to initial teacher certification is currently being offered.

5.1 Impact on P-12 learning and development. Report information on candidate performance during pre-service and completer performance during in-service for programs leading to an initial teacher certification or licensure.

Which of the following measures of impact on P-12 student learning is the EPP using and planning to use as evidence?

5.2 Results of completer surveys. Report information on the satisfaction of completers of programs leading to an initial teacher certification or licensure.

5.2.1. If "Disagree", go to 5.3
Completer survey results are available to the EPP.

5.2.2 Which of the following descriptions characterize the completer survey(s) available on the preparation of the EPP? (Check all that apply.)

- The completer provides summary ratings of the EPP and its programs.
- The completer provides responses to open-ended questions about the EPP.
- The completer provides a response to questions about their preparation in at least one of the following areas:
  - Content knowledge
  - Instruction and pedagogical content knowledge
  - Teaching diverse P-12 students
  - Teaching P-12 students with diverse needs
  - Classroom management
  - Alignment of teaching with state standards
  - Family and community engagement
  - Assessment of P-12 student learning
  - Other (Specify)
    - Student services, quality of clinical experiences, quality of faculty/instruction preparation in administrative and instructional technology applications

5.2.3 If applicable, after a candidate completes a program, when does the EPP administer its completer surveys? (Check all that apply.)

- At the end of the program
- Between the end of the program and one year after program completion
- Between one and two years after program completion
- Between two and three years after program completion
- Between three and four years after program completion
- More than four years after program completion

5.2.4 Indicate the EPP's access to results of completer surveys and the survey response levels.

5.2.5 The EPP can demonstrate that the completer survey is...

- Reliable (produces consistent results about completer satisfaction)
- Valid (can make an appropriate inference about completer satisfaction)
- A measure with a representative sample (demonstrates typical completer responses)
- Inclusive of stakeholder interests
- A measure that produces actionable results (provides specific guidance to the EPP for continuous improvement)
5.2.6 The EPP can demonstrate that it has made modifications in its preparation based on completer survey results.

Section 6. Areas for Improvement, Weaknesses, and/or Stipulations

Summarize EPP activities and the outcomes of those activities as they relate to correcting the areas cited in the last Accreditation Action/Decision Report.

Areas for Improvement related to Standard 2 cited as a result of the last NCATE review:

1. The process for regular and systematic data management of the programs is inconsistent. (ITP)

Areas for Improvement related to Standard 4 cited as a result of the last NCATE review:

1. Candidates have limited opportunities to interact with faculty from diverse backgrounds. (ITP) (ADV)

2. Candidates have limited opportunities to interact with candidates from diverse backgrounds. (ITP) (ADV)
3. The unit does not ensure that all initial and advanced candidates have field experiences and clinical practice with P-12 students from diverse backgrounds. (ITP) (ADV)

The Post Bac and MAT programs were specifically cited in the review and systematic assignment of instructors from diverse backgrounds (Hispanic and African American) have been assigned to required courses in those programs. In all other programs candidates have exposure to faculty from diverse backgrounds systematically including faculty bilingual or multilingual faculty natives from Argentina, Cuba, Korea, China. UNG also has Hispanic, African American, and Native American faculty with two or more of those groups represented in every program. With the consolidation of GSC and NGCSU institutions the diversity of the student population has increased significantly with more than 19% of students representing non-white populations. UNG has developed a Hispanic recruitment initiative and active participation in a state initiative (Complete College Georgia) which is putting in place supports for student retention and completion.

Section 7. Accreditation Pathway

Continuous Improvement. Summarize progress toward target level performance on the standard(s) selected:

UNG has always had emphasis on clinical experience and strong professional relationships with partner schools in our region. As testament to the critical importance of intensive clinical preparation the University of North Georgia will target Standard 2: Clinical Partnerships and practice. UNG has developed relationships with a number of districts and schools that function in professional development community or professional school models. The largest program in the College of Education, the Early Childhood and Special Education (dual certification) program is entirely based in professional development communities (PDCs), where geographically clustered partner schools work together with UNG faculty assigned to the PDC to collaborate in course delivery, supervision and reciprocal professional development totality in the partner school setting. PDC’s also have benefited of shared IHE/P-12 faculty. In this program teacher candidates spend two full years in intensive clinical practice. With the consolidation of NGCSU and GSC there are now four campuses within 30 minutes of each other providing access to course content in the Arts and Science required in much greater quantity in the middle grades, P-12/7-12, MAT and Post Baccalaureate programs. We identified and are implementing PDC’s in schools geographically accessible to the four campuses and also providing required content classes. This reduces the amount of time teacher candidates spend in travel, and increases the amount of time teacher candidates spend in clinical practice. Currently, middle and secondary/P-12 candidates spend one year in intensive clinical practice with varying amounts of clinical experience prior to senior year. The (ambitious) goal of the UNG College of Education is to have formal, successful and intensive clinical professional school partnerships for every placement required after admission, as well as highly structured placement prior to admission. Toward this end we will continue to develop avenues for common curricular and assessment development, common candidate expectations development, common professional development and increased numbers of shared faculty.

Section 8: Preparer’s Authorization
