Understanding The Force-Incapacity-Consent Construct

Overview of the Construct

1. Was **force** used by the Respondent to engage in the sexual activity?
2. Was the Complainant **Incapacitated**?
 - a) Did the Respondent know OR
 - b) Should the Respondent have known that the Complainant was incapacitated?
3. What **clear words or actions** by the Complainant gave the Respondent indication that the **sexual activity was mutually agreed upon**?
4. Was the Complainant's consent **withdrawn** during the sexual activity?

Consent

- **Words or actions** that show a **knowing** and **voluntary willingness** to engage in a **mutually agreed upon sexual activity**
- Past consent \neq Present consent
- The scope of consent matters
- Can be invalidated by: force, intimidation, incapacitation, or withdrawal

Force

- Was force used by the Respondent to engage in the sexual activity?
- Because consent must be voluntary (an act of free will) consent cannot be obtained through use of force
- Types of Force to consider:
 - Physical violence -- hitting, restraint, pushing, kicking, etc.
 - Threats -- anything that gets the other person to do something they wouldn't ordinarily have done absent the threat

Force Continued

- **Intimidation** - an implied threat that menaces and/or causes reasonable fear
- **Coercion** – the application of an unreasonable amount of pressure for sexual access
 - Consider:
 - Frequency
 - Intensity
 - Duration
 - Isolation

Force Analysis

- Did the Respondent utilize force or intimidation to engage in the sexual activity with the Complainant?
 - If yes = violation of policy
 - If no = Move on with the analysis

Consent and the Role of Alcohol and Drugs

Incapacitation

- Physical and/or mental inability to make informed, rational judgments
 - Could the Complainant make rational, reasonable decisions ?
 - Could the Complainant appreciate the situation and address it consciously?
- More than mere intoxication or drunkenness

Determining Incapacitation

- Incapacitation is a determination that will be made after the incident in light of all the facts available
- Assessing incapacitation is very fact dependent analysis of the incident in question
- Various forms of incapacity
 - Alcohol or other drugs
 - Mental/cognitive impairment
 - Injury
 - Sleep

Two-Part Incapacitation Analysis

Part One

- Was the Complainant incapacitated?

Subjective analysis based on the facts surrounding the incident

Part Two

- Did the Respondent know of the Complainant's incapacity?
 - Or would a Reasonable Person have known?

Objective analysis based on the facts surrounding the incident

Common Factors that Impact the Effect of Alcohol

- Rate of consumption
- Strength of drink
- Food in the stomach
- Body Weight
- Body Type – body fat percentage
- Gender
- Enzymes, hormones, water in body
- Medications
- Illness & dehydration
- Fatigue
- Caffeine
- Genetics

Possible Signs of Incapacitation

- Lack of control over physical movements
 - Ex. Inability to dress or walk without assistance
- Lack of awareness of circumstances or surroundings
- Inability to communicate coherently
- Vomiting
- Total or intermittent unconsciousness

Respondent's Awareness

- The Respondent [or a Reasonable Person] must have been aware of the Complainant's incapacity
- The Respondent's own intoxication does not negate their obligation to comply with policy standards

Incapacitation Analysis

- If the Complainant was not incapacitated, move on to the 3rd question.
- If the Complainant was incapacitated, but:
 - The Respondent did not know it = analysis fails. Move on to the 3rd question.
 - The Respondent should not have known it = analysis fails. Move on to 3rd question.
- If the Complainant was incapacitated, and:
 - The Respondent actually knew it = violation of policy
 - The Respondent should have known it = violation of policy

Consent

What clear words or actions by the Complainant gave the Respondent permission for the specific sexual activity that took place?

Consent Is...

- Informed (knowing)
- Voluntary (freely given)
- Active (not passive)
- Clear words or actions
- Indicates permission to engage in mutually agreed upon (sexual) activity

Rules to Remember

- No means no, but nothing also means no
Silence and passivity do not equal permission
- To be valid, consent must be given prior to or contemporaneously with the sexual activity
- Consent can be withdrawn at any time

Withdrawal

- Remember consent can be withdrawn at any time
- The person withdrawing consent is expected to clearly communicate with words or actions they are withdrawing consent
- Other person is required to cease sexual activity until consent is regained

Evaluation of Evidence and Decision-Making Skills

Effective Questioning

- Questions should be used to determine:
 - Who
 - What
 - When
 - Where
 - How
- Be mindful of how a question could be perceived and develop them with caution

Effective Questioning

What are your goals?

- Learn the facts
- Establish a timeline
- Determine what is more likely than not to have occurred [if possible]

What are NOT your goals?

- Satisfying your curiosity
- Answering every unknown to get the “Truth”

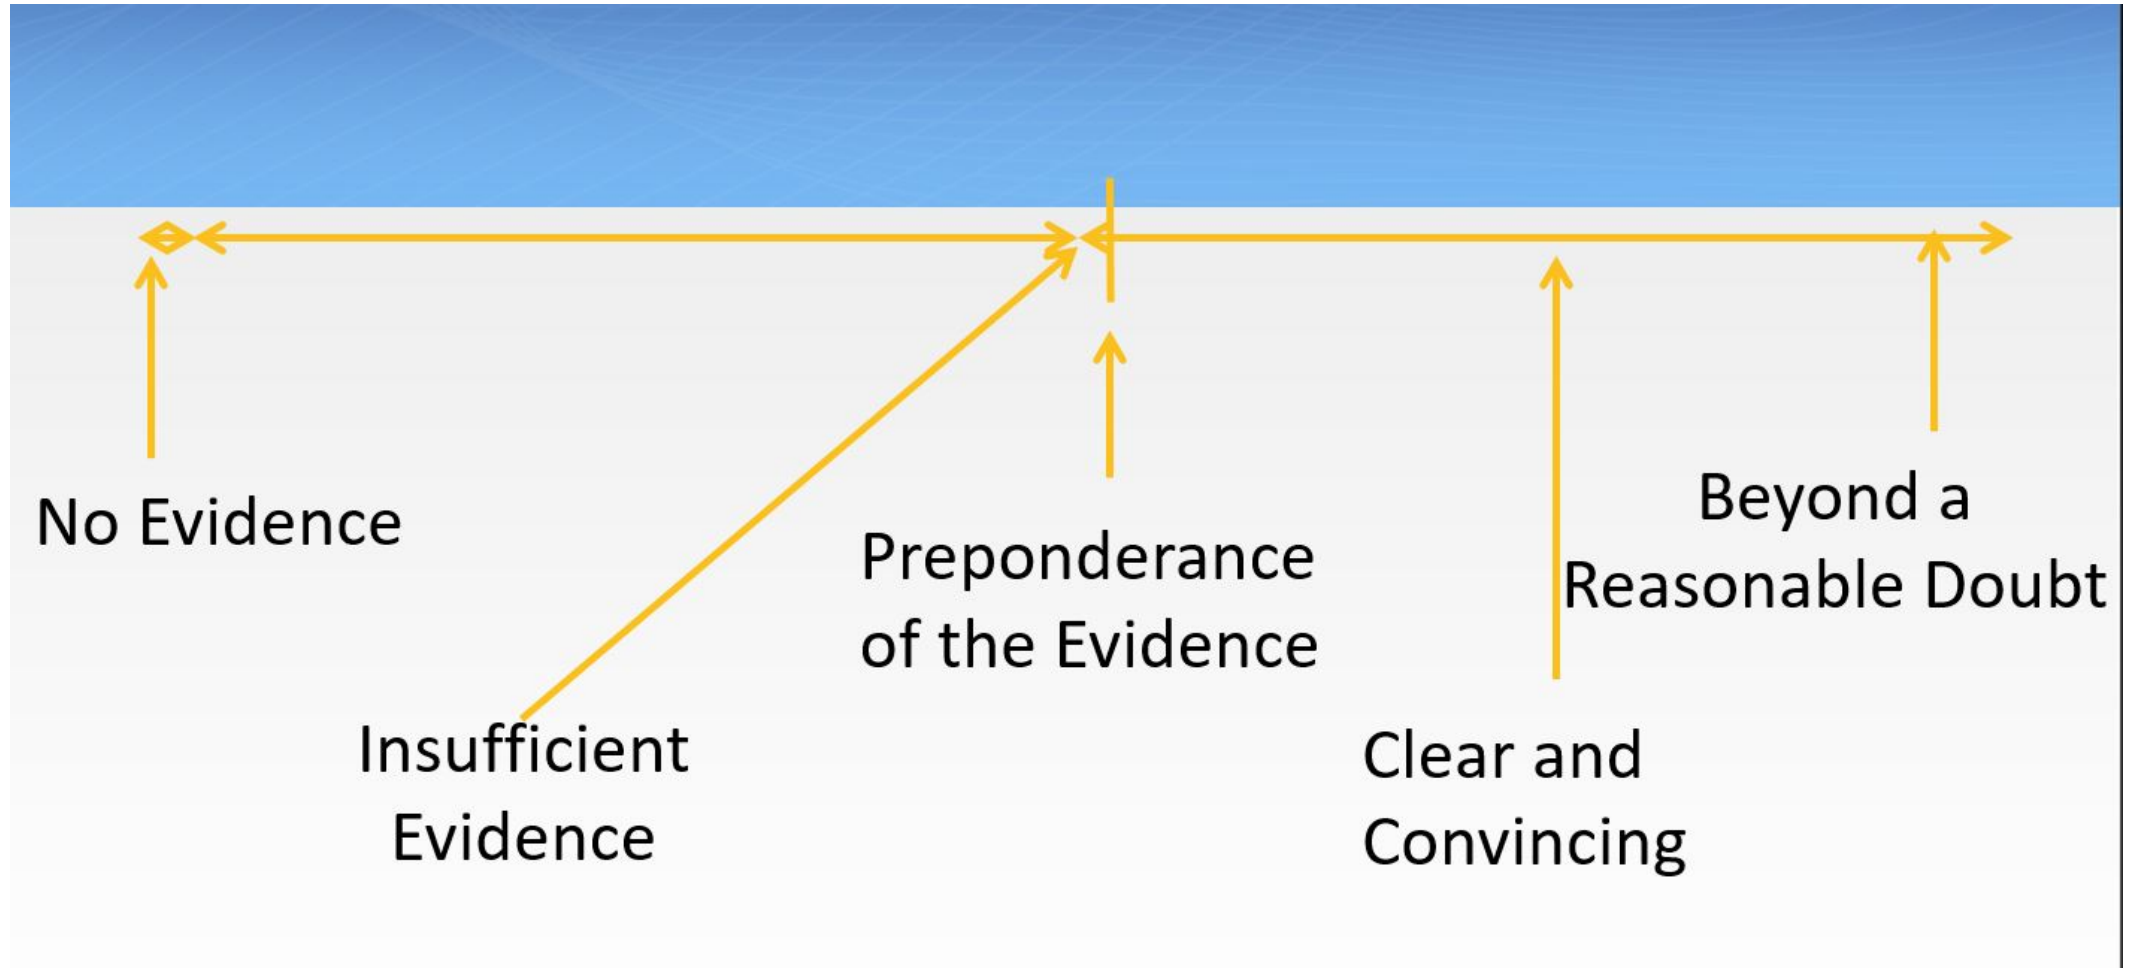

Effective Questioning

- Ask open-ended questions to start the conversation
- LISTEN, ask follow-up questions at the end
- Don't be afraid of silence
- Don't be afraid to ask for clarification
- Take breaks if necessary
- Maintain your professionalism at all times

Understanding Evidence

- **Formal rules of evidence do not apply.** If the information is considered **relevant** to prove or disprove a fact at issue, it **should be admitted**. If **credible**, it **should be considered**
- Evidence is any kind of information presented with the intent to prove what took place
- Certain types of evidence may be relevant to the credibility of the witness, but not to the charges

Understanding Evidence Thresholds

Types of Evidence

- **Documentary** evidence (supportive writings or documents)
- **Electronic** evidence (photos, text messages, videos)
- **Real** evidence (physical object)
- **Direct** or testimonial evidence (personal observation or experience)
- **Circumstantial** Evidence (not eyewitness, but compelling)
- **Hearsay** Evidence (statement made outside the hearing, but presented as important information)
- **Character** Evidence (generally of little value or relevance)

Weighing Evidence

- Weighing evidence means assessing the impact of the information
- The following factors impact the assessment:
 - Relevance
 - Reliability
 - Persuasiveness
 - Bias

Weighing Evidence: Impact Factors

- **Relevance**

- Must relate to the incident at issue and be of sufficient value in the overall determination
- Must be offered by an individual with actual knowledge of the event

Irrelevant

- Questions and information regarding the Complainant's sexual history or sexual predisposition unless to prove
 - Someone else other than the Respondent committed the alleged misconduct
 - Consent between the parties

Weighing Evidence: Impact Factors

- **Reliability**

- Information that can be trusted
- Comes from individuals who are able to have assumed the role they claimed to have or those with actual training or experience to support their claim of expertise

- **Persuasiveness**

- Induces others to believe through understanding; tries to convince
- Must be believable, consistent, and establishes a dependable narrative
- **Note:** be mindful of the rehearsed narrative

Weighing Evidence: Impact Factors

- **Bias**

- Understand who the person is and their relationship to the parties and incident at issue
- Bias can manifest in multiple ways:
 - Towards the parties
 - Towards the incident
 - Towards the process

Credibility

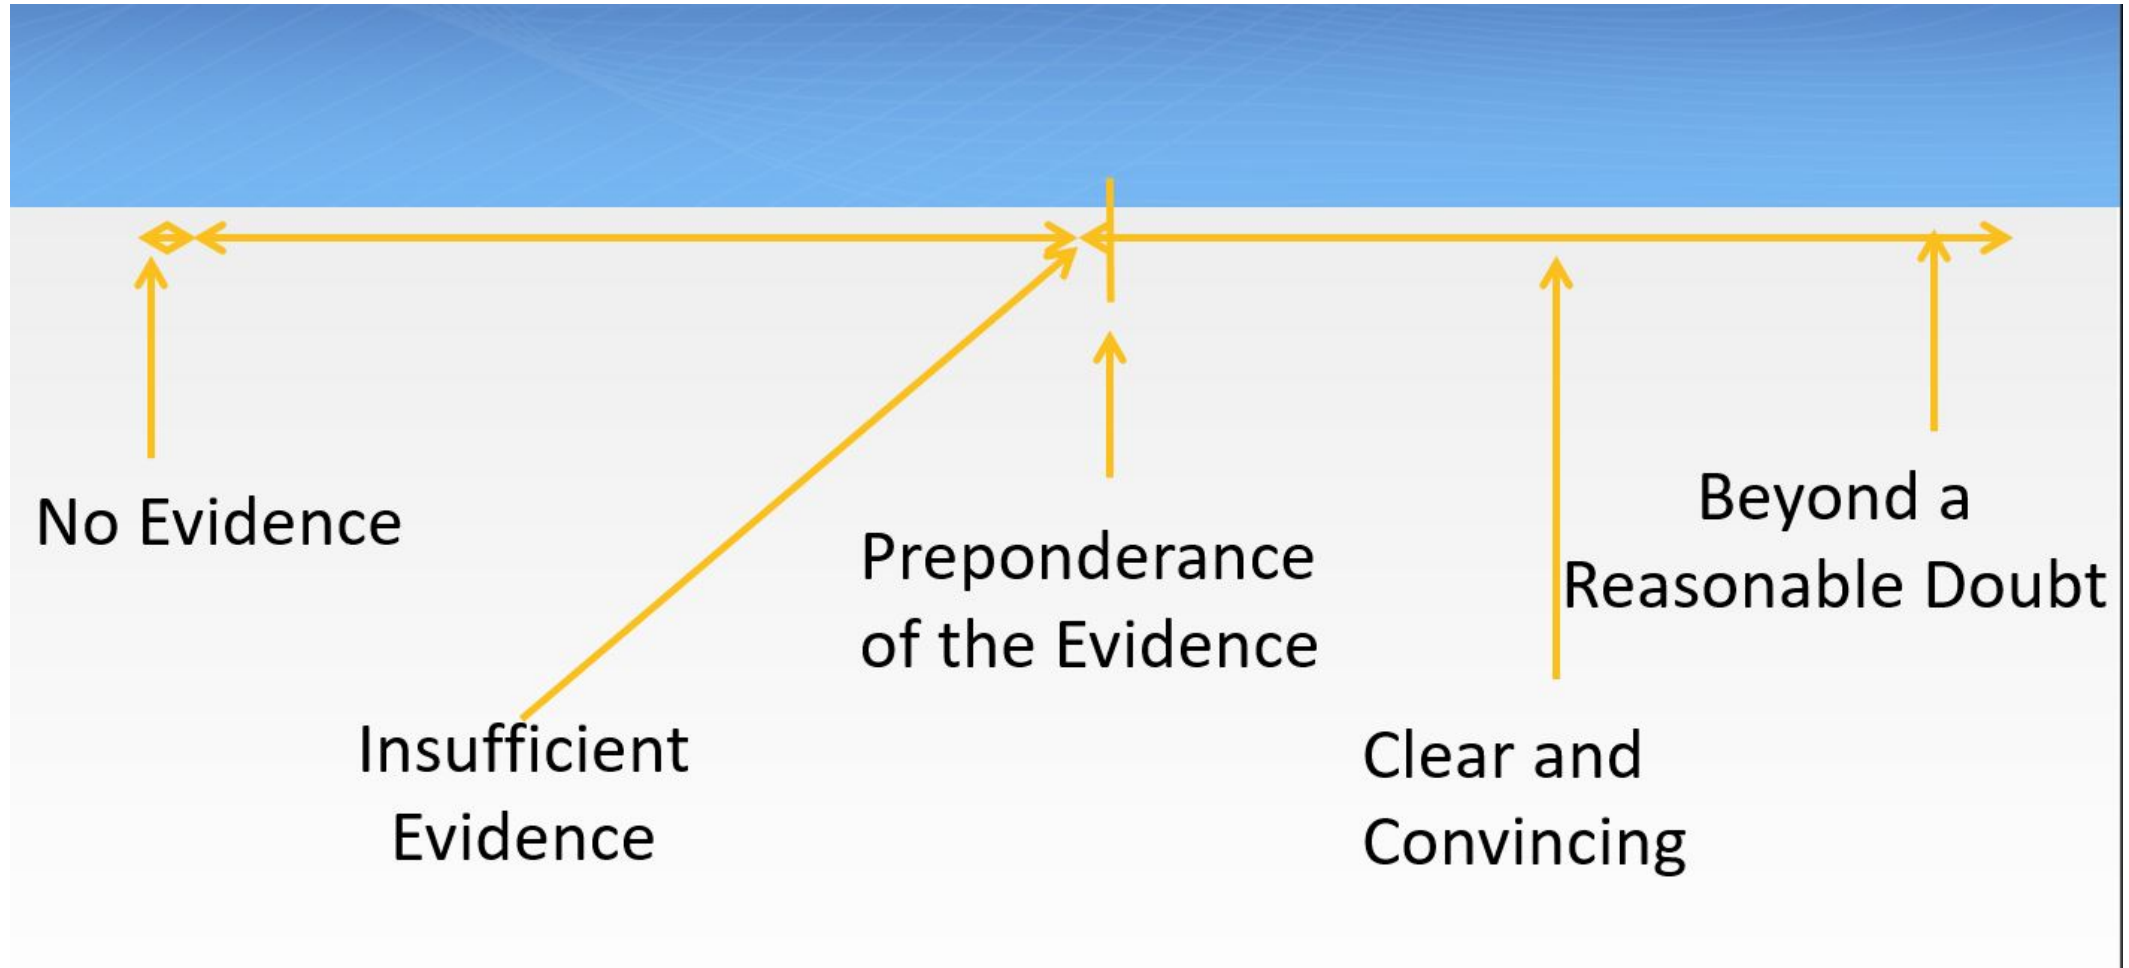

- “To assess credibility is to assess overall the **extent to which you can rely** on a witness’ testimony to be accurate and helpful in your understanding of the case”
 - Credible is not synonymous with the absolute truth
 - Memory errors do not necessarily destroy a witness’ credibility, nor does some evasion or misleading
 - Refrain from focusing on irrelevant inaccuracies and inconsistencies
- Potential Assessment Factors
 - Demeanor
 - Non-cooperation
 - Logic/Consistency
 - Corroborating evidence

Other Evidentiary Exclusions

- Legally privileged information is protected
- A party's treatment records cannot be used without their voluntary, written consent
- Duplicative evidence may be deemed irrelevant
- If an individual does not submit to cross examination, at a Title IX hearing, their statements cannot be relied upon

Understanding Evidence Thresholds

Determining Appropriate Sanctions

- “Must be made as a proportionate response to the violation.”
- Should prevent the recurrence of sexual misconduct
- Should remedy the effects of the sexual misconduct

Common Student Sanctions

- Warning
 - Probation
 - Loss of Privileges
 - Counseling
 - No Contact Directives
 - Residence Hall Relocation, Suspension or Expulsion
 - Limited Access to Campus
 - Service Hours
 - Online Education
 - Alcohol & Drug Assessment and Counseling
 - Discretionary Sanctions
 - Suspension*
 - Expulsion*
- *Must be supported by **substantial evidence** at the hearing

Understanding Substantial Evidence

- Required to suspend or expel a student
- Panel **MUST** be able to clearly state what evidence exists that a reasonable person might accept to support their decision

Deliberations & Decision-Making

- Private deliberations with only the panelists
- Not required to make a unanimous decision
- Required to issue a written decision of findings
 - Summarize evidence supporting the decision
 - Explain the substantial evidence to support sanction of suspension or expulsion

The Written Decision §106.45(b)(7)

- Provided to both parties simultaneously must include:
 - The allegations
 - The procedural steps from the complaint through determination
 - Findings of fact supporting the determination
 - Determinations regarding responsibility, sanctions (and remedies) along with the supporting evidence and rationale
 - Information on the appeals process

Appeals

- Parties will continue to have both institutional level and Board level appeal opportunities
- Grounds for an appeal:
 - New information
 - Procedural Error
 - Ex. Bias or conflict of interest of Title IX personnel
 - Finding inconsistent with the weight of the information

Additional Considerations

Hearing Logistics

- At the request of either party, the parties must be permitted to be in separate rooms
- Hearings may be conducted in-person or via videoconferencing
 - As panelists you should be familiar with any technology utilized
- All directly related information will be available
- Institutions will establish rules of decorum which everyone is expected to adhere to
- All hearings must be recorded

Things to Keep in Mind

Before the Hearing

- Review all available materials:
 - Sexual Misconduct Policy
 - Investigative Report
 - Supplemental documentation
- Determine whether you are participating in a Title IX or Sexual Misconduct Hearing
- Prepare questions in advance

During the Hearing

- Be patient
- Listen
- Don't draw conclusions until all evidence and testimony are presented
- Be mindful of the seriousness of the situation

The Investigative Report

- Summary of Allegations
- Identifies Applicable Policies and Procedures
- Statement and Explanation of the Evidentiary Standard
- Describe/Explain Evidence Obtained & Reviewed
- Investigative Findings

Retaliation §106.71

- **Who is protected:** Reporters, Complainants, Witnesses, Respondents, even those who choose to not participate
- **What is protected:** Intimidation, threats, coercion, discrimination
 - Ex. Charging individuals for code of conduct violations that arise out of the same facts or circumstances
 - Ex. Not keeping the identity of the Complainant, Respondent, or any witnesses confidential

Record Keeping § 106.45(b)(10)

- 7-year records retention mandate:
 - Reports [supportive measures, why not deliberately indifferent and what measures taken to restore or preserve equal access]
 - Investigations [determinations, recording of hearing, sanctions and remedies implemented]
 - Appeals
 - Informal resolutions [results]
 - Training materials
