# English Placement (EPI) and Math Placement (MPI) Indices

**If you need this document in another format, please email [molly.potts@ung.edu](mailto:molly.potts@ung.edu) or call 678-717-3641.**

**Applicants who are not exempt from Learning Support screening by SAT/ACT scores, transferable college credit, or completion of Learning Support at another regionally accredited institution must have an** EPI of at least 3032 and MPI of at least 928. If the EPI is less than 3032 and the MPI is less than 928, the applicant will not be admitted to UNG or other University System of Georgia institutions.

**Students who score below the minimum on either the EPI or MPI will be considered for admission if:**

- EPI is **less than** 3032 and MPI is **greater than or equal to** 1028.
- MPI is **less than** 928 and EPI is **greater than or equal to** 3905.

EPI and MPI calculations are based on the following:

- Entering freshman who graduated high school within the past five years: high school GPA (calculated on the RHSC curriculum courses only) and SAT/ACT scores
- Students who graduated high school more than five years ago or earned a GED and do not have valid SAT or ACT scores: required Accuplacer assessment
- Students applying for readmission, transferring from another school without college-level English/Math credit (see above) or who have a GED and valid SAT/ACT scores: combination of Accuplacer scores and SAT/ACT scores

For more information about how the indices are calculated, visit the University System of Georgia's [Academic and Student Affairs Handbook](#).

For more information about UNG's placement rules based on EPI/MPI, visit UNG's [LS policies website](#):
