UNG is designated as a State Leadership Institution and as The Military College of Georgia®.

**UNG** | UNIVERSITY of  
NORTH GEORGIA™

**Where  
will you  
*lead?***

### BERKELEY, CA

**John Dees '15** continued his education from UNG to a Master's and PhD program at UC Berkeley, studying energy and resources.

### DAHLONEGA

Chemistry Professor **Aimee Tomlinson Ph.D.** was recognized as one of "100 Inspiring Women in STEM" by INSIGHT Into Diversity magazine, 2015.

### GAINESVILLE

**Maria Marquez**, a first-generation college student and cybersecurity major, was one of 50 students in the country to complete all of the tasks in the NSA Codebreaker Challenge.

### ORLANDO, FL

**Lana Goitia '20** scored an internship at Disney World, and another voting rights internship at the American Civil Liberties Union (ACLU) of Georgia.

### BRUNSWICK, GA

Professor **Dr. David Patterson** was awarded a National Geographic Society Exploration grant to study ancient environments and fossils.

### PUERTO RICO

Students **Joseph Froetschel, Suzy Steel and Lani Chastain** helmed the world's second-largest single-dish radio telescope at Arecibo Observatory in Puerto Rico.

### GEORGIA

**Dr. Donna Gassell** spent a semester teaching conversational English to cadets at the David Aghmashenebeli National Defense Academy of Georgia.

# LEAD ANYWHERE AND EVERYWHERE.

Whether staying in the region or traveling the globe, UNG students and faculty gain life-defining experiences. Almost wherever you look, there's a UNG leader there.

### MOROCCO

World traveler **Anita Renfroe '17** received scholarships to study abroad to Spain, Morocco, Oman, and Tanzania.

### JORDAN

**Lauren Billet '16** was the first UNG student to win a Boren Fellowship to study Arabic and Middle Eastern Culture in Amman.

### CHINA

**Jamar Shumaker** earned the Critical Language Scholarship to study and be immersed in Chinese culture for eight weeks.

# Where will you *lead?*

## **LEAD WHERE IT COUNTS**

Maybe you envision yourself as the presenter at the front of the room. Maybe you're the glue that holds a team together. Or maybe you don't see yourself as a leader...yet.

Just you wait. UNG will help you develop the skills—and drive—to lead where it matters to you.

# LEADING IN INVOLVEMENT

**Ximena Luna's** resume is a notable one: Goizueta Scholar; McNair Scholar; Gilman Scholar; vice president of public relations in the Latino Student Association; member of the UNG Spanish Speaking Debate Team; Student Government Association representative; and she holds multiple on-campus jobs. Did we also mention she studied abroad in Spain?!

Her favorite part of her time at UNG is participating in clubs and organizations. She says "At UNG, I found a safe place where I feel like I belong, where I know my opinion matters and where I found people like me, who support me and help me become a better person every day." With more than 300 clubs and organizations, you're bound to find your niche at UNG!

# LEADING IN SCHOLARSHIP

Meet Uriyah: a trendsetting kinesiology major from Bainbridge, Georgia.

She and two other students chartered UNG's first historically black sorority, Sigma Gamma Rho. Her success didn't stop there. That same semester, she was also awarded a Gilman Scholarship to study abroad in Spain for the summer. She then took it another step further and was declared a McNair Scholar. This program assists students in preparing for post-graduate studies.

Uriyah is leading where it counts by excelling academically and in student life.

## LEADING IN CYBER

Cybersecurity is one of the fastest growing fields, and UNG is at the forefront. Dr. Bryson Payne, computer science professor and Director of the Center for Cyber Operations Education at UNG, recently led our team of cyberoperations students to a 1st place victory at the NSA Codebreaker Competition. They beat other prominent institutions, including Georgia Tech and Oregon State University.

“I’m proud to be the coach of the No. 1 cyber operations university team in America,” said Payne. And even though you may not be interested in cybersecurity, he is a prime example of what you can expect out of your faculty at UNG—invested in your individual success, and an expert in their field.

## LEADING THE PACK

As the second woman ever to serve as commander for the Corps of Cadets, **Cadet Col. Logan Scott** is accustomed to leading. A senior Kinesiology major, she previously served as an officer for the Corps' Leadership Development Program and earned a grade of outstanding at Advanced Camp that summer.

Logan may be ahead of the curve for her many achievements, but she embraces opportunities as they come: "The most important skill that I have learned within the Corps is to lead when it is your time to lead."

## LEADING ON CAMPUS

**Noah Bryant**, a self-proclaimed introvert, used to shy away from the spotlight. But one push from his professors and friends catapulted him into leading UNG's Student Government Association.

Now, he's the go-to person on campus for all things club-related. And he's breaking into new roles. As a peer tutor, he holds weekly study sessions for world history students who are having trouble grasping material from class.

It's a passion he plans to develop into a career as a history professor.
