SWAMPED: INTERDISCIPLINARY TEACHING APPROACHES FOR NEW FACULTY

Edited by Justin M. Carroll

ISBN: 978-1-959203-08-7

Paperback: \$29.99

6 x 9 | 312 pp | B/W

Pedagogy

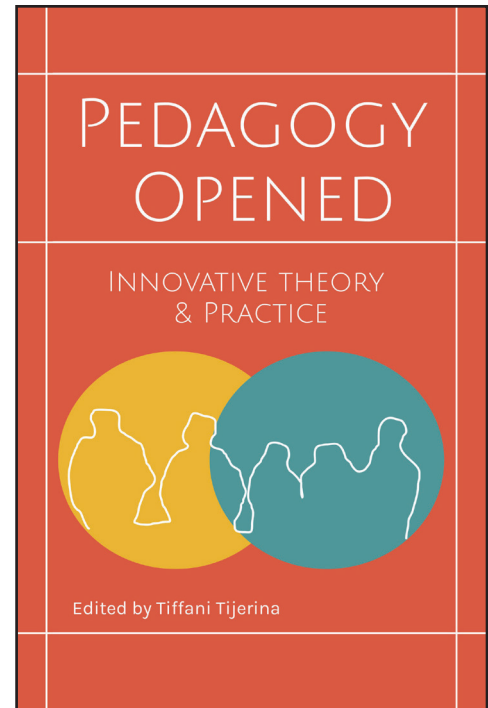

It's no secret that the new faculty experience in higher education is rather fraught. Mounting pressures for professional publication, navigating the tricky waters of fluctuating publisher resources, ballooning service requirements, and limited departmental resources can all leave a new faculty member struggling with imposter syndrome at best, and floundering in silence while attempting develop effective classroom strategies at worst.

Discover a range of flexible, immediately actionable projects, assignments, and curriculum structures in *Swamped: Interdisciplinary Teaching Approaches for New Faculty*. These battle-tested strategies have been carefully organized to provide new instructors with the space to adapt, modify, or reuse this material to fit any academic context or need. Developed by experienced faculty from the University of Indiana East, the goal is to share and disseminate these tools and experiences as widely as possible so that others might use them, make them better, and share them further.

The authors and editor intend for these projects, assignments, and processes to create freedom and academic space for new faculty members to work on their vital research, focus on innovative service opportunities, and help mitigate teaching fears and uncertainties that often accompany the transition from graduate student to professor.

Pedagogy

Open pedagogy is teaching and learning practices and environments that promote equity, collaboration, and innovation and invite students to create and share knowledge with future publics, often in association with the use of open educational resources (OER).

Pedagogy Opened: Innovative Theory and Practice seeks to advance the study of open and innovative pedagogy through the belief that their impact and reach are increased by research on and analysis of the theory and practice of open pedagogy across the disciplines and via multiple modalities.

In this first volume of *Pedagogy Opened*, seven author teams explore and share their work with open pedagogy in a variety of ways, including through research, practice, and autoethnographic reflection.

CHEROKEE HISTORY AND THE SPIRIT FAMILY

James Neil Barnes

A sweeping, yet personal view of one of America's biggest historical tragedies, Cherokee History and the Spirit Family interweaves one family's journey on the Trail of Tears with the larger cultural and multinational impacts of Cherokee displacement from the southeastern United States.

Nonfiction

Thoroughly researched and eloquently told by author and Spirit family descendant James Barnes, this resonant, non-fiction history showcases the amazing resiliency of a people who refuse to let suffering keep them from maintaining joy, love, and cultural identity. Follow the Spirit family from 1826-1910, through one of the darkest periods of cultural persecution in our nation's history, as they fight, grieve, and advocate for the Cherokee Nation's sovereignty in the face of steep opposition from the United States government.

A multi-generational account of perseverance and hope, Barnes skillfully weaves his family's and Nation's history together to bring both alive. Providing both a broad historical canvas for understanding Cherokee history and an intimate view of family lives during the critical periods of removal, the Civil War, and Allotment, this book will resonate deeply with audiences of research-driven, historical non-fiction.

PRINCIPLES OF LEADERSHIP

ISBN: 978-1-940771-97-7

Paperback: \$19.99

8.5 x 11 | 136 pp | Full Color

Open Access Textbook, Leadership

The intent behind *Principles of Leadership* is to present effective leadership principles through the unique lenses of our various authors, who offer students a wider variety of academic research and professional experiences. This broader view enhances the student experience, providing leadership principles that could be used by undergraduate students in not only their course of study but also their current and future career paths. Three faculty members from participating institutions were asked to co-author this text, bringing together various views and experiences to the basic study of leadership. The contributing authors are Drs. Heather Mbaye, University of West Georgia; Stephen Northam, University of North Georgia; and Matthew Hipps, MPA, from Dalton State College. By including this diverse set of perspectives, the textbook spans both academic research literature and professionally distinct understandings of leadership in practice to create well-rounded learning opportunities for students.

THE ALIENS WILL COME TO GEORGIA FIRST

Stephen Hundley

*An otherworldly debut from award-winning short story author Stephen Hundley, *The Aliens Will Come To Georgia First* presents a no holds barred meditation on the lives of small town Southerners pursuing acceptance, love, revenge, and reconciliation in the families and communities that bind them.*

ISBN: 978-1-940771-78-6

Paperback: \$19.99

6 x 9 | 162 pp | B/W

Southern Fiction

An electrifying debut from Stephen Hundley, winner of the 2019 Larry Brown Short Story Award, *The Aliens Will Come To Georgia First* offers an intimate glimpse into the lives of a working class, American south populated by people who have made themselves acolytes of existential powers. Set in Georgia's swamps, foothills, forests, and barrier islands, each story explores the wild hopes and fears of men and women who grapple with death, distant lovers, and damaged families as well as sharks, stray dogs, and man-eating tigers.

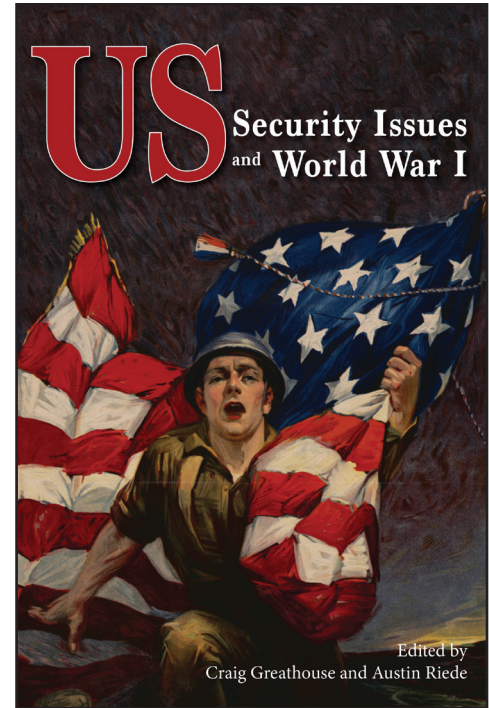

A boy and girl find a body on the marsh, a delusional nude model takes on the fight of his life, and a diver visits a sleeping nuclear bomb just a mile from the beach. Tourists eat shrimp and cheer for dolphins while a man falls in love with his television and a handy-woman sees jellyfish-like travelers from outer space. These unique portraits of people and relationships stretch, prod, and redefine the dynamics that compose family, faith, and our sense of place.

Surreal and gritty, spiritual and rebellious, *The Aliens Will Come To Georgia First* forms its own galaxy of stories that mesmerize with their unflinching honesty, signaling the explosive entrance of a shining new voice in contemporary Southern fiction.

US SECURITY ISSUES AND WORLD WAR I

Edited by Craig Greathouse and Austin Riede

Loaded with fresh perspectives, US Security Issues and World War I offers significant, research-fueled commentary on key American policy and military decisions leading up to and during the Great War.

ISBN: 978-1-959203-04-9

Paperback: \$24.99

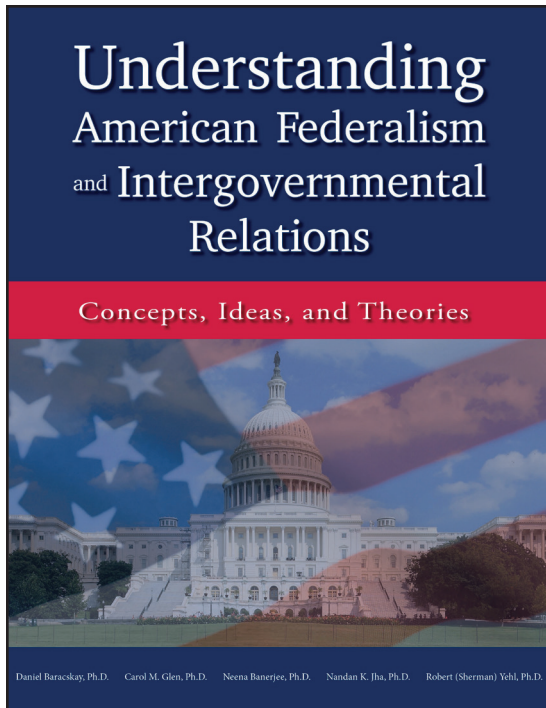

6 x 9 | 302 pp | B/W

World War I, Security Studies

After many years of stubborn Isolationism and heated debate, the United States declared war on Imperial Germany in early April, 1917. This decision catapulted the country into one of the fiercest conflicts to date, triggering a widespread reorganization of the European continent afterward. *US Security Issues and World War I* is a fascinating essay collection featuring top WWI experts and researchers who explore the tempestuous atmosphere of American politics leading up to the war, the personal and public complexities driving our key political and military leaders, the ethical battle over poison gas in an already deadly conflict, and the tensions between freedom of the press and protecting troop movements in the theaters of war.

Split in two parts covering domestic security and international wartime issues, the collection leads readers through President Woodrow Wilson's fraught experience in office and controversial policy decisions, through the wartime experience on the home front—including Anti-German sentiment and impacts from the 1917 Espionage Act, to the battlefield experience and complex power dynamics between American General John Pershing, British Field Marshal Sir Douglas Haig, and French Commander-in-Chief Joseph Joffre. Thoughtfully developed as an additional source on key topics from the American WWI experience, *US Security Issues and World War I* seeks to shed new light on the forgotten corners of this gruesome conflict. The essays in this collection coalesce to form a vital, multi-faceted discussion on the most influential war of the twentieth century, the impacts of which still echo into modern international policy decisions.

Open Access Textbook, Intergovernmental Relations

So often, the notions of federalism, intergovernmental relations, and intergovernmental management are treated separately in the literature without attempting to draw out important connections between them, both in terms of theory and practice. This tends to neglect the many interrelated influences that have collectively shaped the evolution of our system of government. Consequently, this book seeks to broach this shortcoming by opting for a broader and more comprehensive approach, in which our authors explore the many dimensions of intergovernmental relations that have made it a facet of our nation's dynamic federal structure, and a significant impetus in the development of intergovernmental managerial techniques.

AUSA Book Program

Coming March 2025

Green Berets, Clan Militia, and Blue Helmets: The Illustrated History of Army Special Forces in Somalia provides a meticulous exploration of Somalia's descent into chaos and its implications for international military strategy and foreign policy. Tracing the roots of Somalia's civil war, this book unpacks the complex interplay of clan dynamics, geopolitical rivalries, and the Cold War's aftermath that transformed the nation into a failed state.

Drawing on detailed historical analysis and firsthand accounts, this book examines the United Nation's intervention efforts and the harsh realities military and humanitarian forces faced on the ground. A critical resource for scholars of military studies, international relations, and African history, this volume offers valuable insights into the challenges of state-building, the limits of humanitarian intervention, and the strategic lessons learned from one of the most complex conflicts of the late 20th century. Essential reading for understanding how Somalia's legacy continues to shape global security policies today.

Political Science, Military History

Coming June 2025

Dystopian Discord: Cold War Politics and Cambodian Communism delves into the complex interplay between ideology, nationalism, and conflict within communist regimes. Focusing on the Khmer Rouge's brutal rise and subsequent internal unrest within Cambodia, this book provides a groundbreaking analysis of how ethnic nationalism and xenophobia fueled one of the most catastrophic regimes in history.

Drawing from a wealth of primary and secondary sources, *Dystopian Discord: Cold War Politics and Cambodian Communism* explores the internal and geopolitical tensions that led to war among communist states in Southeast Asia during the Cold War, challenging the oversimplified narrative of a unified communist bloc. Ideal for scholars of military studies, political science, and international relations, this work offers critical insights into the darker facets of revolutionary movements and the enduring impact of ideological extremism on global conflict.

New Edition!

Coming June 2025

This edition will directly address the outcome of the United States presidential election in November 2024.

The Basics of American Government offers a comprehensive overview of the American political system for students taking introductory courses in American national government and combines the best aspects of both a traditional textbook and a reader. *The Basics of American Government* is a collaborative effort among five current and four former faculty members in the Department of Political Science & International Affairs and the Department of Criminal Justice, and a student contributor, at the University of North Georgia. Most of its chapters offer a piece of original scholarship as a case study bolstering the material in the chapter. Additionally, most chapters present a civic engagement-type exercise and discussion questions that are challenging and engaging, and help foster student participation in the political system. The purpose of this book is to offer a no-frills, low-cost, yet comprehensive overview of the American political system for students taking introductory courses in American national government.

Military History, Leadership

AUSA Book Program

Coming September 2025

Discover the untold story of the Noncommissioned Officer Candidate Course (NCOCC), a transformative yet overlooked chapter in US Army history. *NCO School: How the Vietnam-era NCO Candidate Course Shaped the Modern Army* unveils the rigorous training and complex legacy of a program designed to rapidly produce combat-ready leaders during the Vietnam War. Often dismissed as “Shake ‘n Bake” NCOs, these men faced harsh scrutiny and intense pressure despite their vital role in military operations.

This meticulously-researched book challenges the myths and stereotypes surrounding NCOs and their training, highlighting the program’s impact on the NCO Corps’ evolution and its enduring lessons for military leadership. Drawing from firsthand accounts, historical records, and personal reflections, author Daniel K. Elder offers a comprehensive narrative that not only honors those who served but also provides critical insights for today’s military scholars and practitioners. A must-read for anyone interested in military studies, leadership development, and the hidden stories of those who led from the frontlines.

SPLINTERED SHADOWS: RECAPTURING A FRENCH RÉSISTANTE

ISBN: 978-1-959203-15-5

Paperback: \$24.99

6 x 9 | 276 pp | B/W

Nonfiction

Coming August 2026

Splintered Shadows: Recapturing a French Résistante is an unconventional adoptee-search narrative told against the backdrop of World War II. French Andrée married an American serviceman after the War, left France, and went to her grave with the story of her life. Marilyn Moriarty, her adoptive daughter, was determined to learn about her mother's past, a search complicated by the discovery of her mother's personal and political double lives in Nazi-occupied France. A mysterious name on a photograph from 1945 became the clue that led Moriarty into her mother's war.

Andrée had concealed her past so successfully, no one in France or America knew the whole story, driving Moriarty to travel to Europe on several occasions in pursuit of the truth. Moriarty unearthed a series of disquieting discoveries about her mother's past, including her prison record, her biological children, and other haunting details presumed buried with her mother. With enough history to illuminate the stakes, with a mother-daughter situation that sheds light on the role of women in a conservative regime, with its theme of children conceived and concealed enfolded in a mystery plot, and with cameos of Paris in the forties, this epic story of heartbreak and reconciliation engages the most difficult question of the next generation: how to make peace with the past.

About Us

The University of North Georgia (UNG) Press, a scholarly, peer-reviewed press, is an extension of our sponsoring university, the University of North Georgia. Our primary function is to promote education and research with a special emphasis on innovative scholarship and pedagogy. Through our partnership with the University System of Georgia (USG), Affordable Learning Georgia (ALG), and eCore, the UNG Press is the leading university press in the state for Open Educational Resources (OER) and Open Textbooks.

Our structure comprises a Faculty Acquisitions Advisory Board with scholars across all disciplines. Our partnership with UNG provides a service-learning environment for students to gain real life experiences in publishing and marketing. These learning opportunities comprise (1) course work tied to UNG Press projects, and (2) internships. Students are immersed in actual book production, from acquisitions to editing to layout and design.
